UNMODIFIED OPINIONS ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

Independent Auditor's Report

Board of Trustees
Junction Independent School District
1700 College St.
Junction, TX 76849

Members of the Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Junction Independent School District as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Junction Independent School District, as of August 31, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of District's proportionate share of the net pension liability, and the schedule of District contributions to TRS, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Junction Independent School District's basic financial statements. The exhibits identified in the Table of Contents as J-1 and J-4 are presented for purposes of additional analysis and are not a required part of the basic financial statements. These are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These exhibits have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 31, 2017, on our consideration of the Junction Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Junction Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Junction Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2017. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$5,094.8 at August 31, 2017.
- During the year, the District's expenses were 489,609 less than the \$6,573,581 generated in taxes and other revenues for governmental activities.
- The total cost of the District's programs was virtually unchanged from last year, and no new programs were added this year.
- The general fund reported a fund balance this year of \$1,340,858.

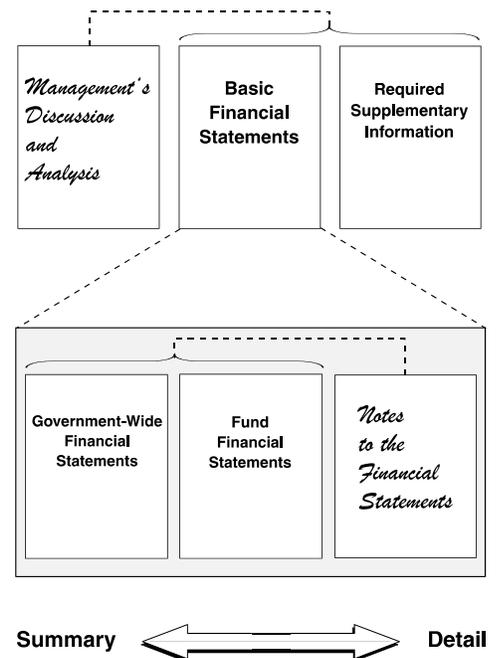

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-1, Required Components of the District's Annual Financial Report

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services and general administration. Property taxes and grants finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*—not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- *Governmental funds*—Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.
- *Fiduciary funds*—The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that—because of a trust arrangement—can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's combined net position was \$5,094.8 thousand at August 31, 2017. (See Table A-1).

	Governmental Activities		Total Percentage Change
	2017	2016	2017-2016
Current assets:			
Cash and cash equivalents	\$ 1,242.5	\$ 1,431.6	-13.2%

Notes Payable	143.6	170.0	-15.5%
Net Pension Liability	<u>1,063.5</u>	<u>1,092.4</u>	<u>-2.6%</u>
Total Long-term liabilities	<u>1,207.1</u>	<u>1,262.4</u>	<u>-4.4%</u>
Total Liabilities	<u>1,530.5</u>	<u>1,591.9</u>	<u>-3.9%</u>
Deferred Inflows of Resources			
Deferred Inflow - Pensions	<u>203.0</u>	<u>184.9</u>	<u>9.8%</u>
Total Deferred Outflows of Resources	<u>203.0</u>	<u>184.9</u>	<u>9.8%</u>
Net Position:			
Invested in capital assets	4,280.2	4,490.8	-4.7%
Restricted for Federal & State Programs	21.3	-	100.0%
Unrestricted	<u>793.3</u>	<u>1,091.3</u>	<u>-27.3%</u>
Total Net Position	<u>\$ 5,094.8</u>	<u>\$ 5,582.1</u>	<u>-8.7%</u>

The \$793.3 thousand of unrestricted net asset represents the sources available to fund the programs of the District next year.

Changes in net position. The District's total revenues were \$6,573.6 thousand. A significant portion, 55 percent, of the District's revenue comes from taxes. (See Figure A-3.) 32 percent comes from state aid – formula grants, while less than 1 percent relates to charges for services.

The total cost of all programs and services was \$7,063.6 thousand 54 percent of these costs are for instructional and student services.

Figure A-3 2017 Revenue Sources

Governmental Activities

- Property tax rates remained the same in 2017, however a slight decrease in values resulted in the decrease of tax revenues from \$3,525.8 thousand to \$3,594.8 thousand.

Figure A-4 2017 Expenses by Function

Table A-3 presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$7,063.2 thousand.
- However, the amount that our taxpayers paid for these activities through property taxes was only \$3,594.8 thousand.
- Some of the cost was paid by those who directly benefited from the programs \$44.5 thousand, or
- By grants and contributions \$844.6 thousand.

Table A-3
Net Cost of Selected District Functions
(in thousands of dollars)

	Total Costs of Services			Net Cost of Services		
	2017	2016	Percent Change	2017	2016	Percent Change

Plant Maintenance & Operations	644.6	648.4	-0.6%	600.3	634.0	-5.3%
Cocurricular/Extracurricular	619.8	602.2	2.9%	603.5	580.7	3.9%

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$6,573.6 compared to \$6,930.5 thousand, in the prior year.

General Fund Budgetary Highlights

Over the course of the year, the District amended its budget as needed, with these adjustments, actual expenditures were \$270,124 below final budget amounts. However, resources available were \$119,076 above the final budgeted amount. Some reasons for these differences are:

- Changes in personnel during the year.
- Major items and services were less than anticipated.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of 2017, the District had invested \$10,061.2 in a broad range of capital assets, including land, equipment, buildings, and vehicles. (See Table A-4.) This amount represents a 0.3% increase (including additions and deductions) over last year.

Table A-4
District's Capital Assets
(in thousands of dollars)

	Governmental Activities		Percentage
	2017	2016	Change 2017-2016
Land	\$ 429.5	\$ 429.5	0.0%
Construction in Progress	-	-	0.0%
Building and Improvements	8,076.4	8,076.4	0.0%
Furniture & Equipment	1,555.3	1,520.3	2.3%
Totals at historical cost	10,061.2	10,026.2	0.3%
Total Accumulated Depreciation	(5,637.4)	(5,365.3)	5.1%
Net Capital Assets	\$ 4,423.8	\$ 4,660.9	-5.1%

Long Term Debt

The District had two loans outstanding at the end of the year. The total balance due at August 31, 2017 was \$143,578.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- There is a 7.65% in appraised value used for the 2018 budget preparation.
- Tax rates increased in 2017 to \$.9933.
- State funding is subject to legislative cuts.

These indicators were taken into account when adopting the general fund budget for 2018. Amounts available for appropriation in the general fund budget are approximately \$6.48 million, with no major increase over the final 2017

Expenditures are budgeted increase approximately 5.2% at \$6.48 million. The District continues to coordinate local funds with federal funds to optimize instructional programs.

If these estimates are realized, the District's budgetary general fund balance is expected to remain the same by the close of 2018.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Office.

JUNCTION INDEPENDENT SCHOOL DISTRICT
 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET POSITION

Total Fund Balances - Governmental Funds	\$ 1,362,150
<p>1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$10,026,165 and accumulate depreciation was \$5,365,347. In addition, long-term liabilities including notes payable that are not due and payable in the current period, and therefore are not reported as liabilities in the funds. The long -term debt was \$170,000. The net effect of including the beginning balances for the capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.</p>	4,490,818
<p>2 Current year capital outlays and long-term debt principal payments are expended in the fund financial statements, but should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2017 capital outlays, and debt principal payments is to increase net position.</p>	61,420
<p>3 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. At the beginning of the year, the net position related to TRS was a Deferred Resource Outflow in the amount of \$708,121, a Deferred Resource Inflow in the amount of \$184,921 and a net pension liability in the amount of \$1,092,415. The impact of this on Net Position is (569,215). Changes from the current year reporting of the TRS plan resulted in a decrease in net position in the amount of (\$87,248). The combination of the beginning of the year amounts and the changes during the year resulted in a difference between the ending fund balance and the ending net position in the amount of (\$656,463).</p>	(656,463)
<p>4 The 2017 depreciation expense increased accumulate Depreciation. The net effect on the current year's depreciation is to decrease net position.</p>	(272,042)
<p>5 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.</p>	108,946
19 Net Position of Governmental Activities	<u><u>\$ 5,094,829</u></u>

JUNCTION INDEPENDENT SCHOOL DISTRICT
 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
 REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
 TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED AUGUST 31, 2017

Total Net Change in Fund Balances - Governmental Funds	\$ (187,332)
Current year capital outlays are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2017 capital outlays and debt principal payments is to increase net position.	61,420
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect on the current year's depreciation is to decrease net position.	(272,042)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, and eliminating interfund transactions. The net effect of these reclassifications and recognitions is to increase net position.	(4,407)
Current year changes due to GASB 68 decreased revenues in the amount of \$44,724 but also increased expenditures in the amount of \$42,524. The net effect on the change in the ending net position was a decrease in the amount of \$87,248.	(87,248)
Change in Net Position of Governmental Activities	<u><u>\$ (489,609)</u></u>

**JUNCTION INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2017**

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Junction Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Junction Independent School District nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds appear as due to/due from on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available [GASB 2300.106a(2) and 1600.108], and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors some times require the District to refund all or part of the unused amount [GASB 2300.106a(2) and 1600.108].

The Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

1. **The General Fund** – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods

Additionally, the District reports the following fund type(s):

Fiduciary Funds:

1. **Agency Funds** – These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Fiduciary funds are reported in the fiduciary financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

E. OTHER ACCOUNTING POLICIES

1. The District records purchases of supplies as expenditures.
2. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the district. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.
3. Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed

Buildings, furniture and equipment of the District is depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	50
Building Improvements	20
Vehicles	5
Office Equipment	5
Computer Equipment	5

4. Risk Management - The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.
5. In the fund financial statements, governmental funds report designations for restrictions, commitments, assignments and non-spendable reserves of fund balance of amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance have been eliminated from the government-wide financial statements. The unassigned fund balance represents that portion of the fund balance

that is available for budgeting in future periods. Commitments and assignments of fund balance may only be done by a resolution of the Board of Trustees. Commitments and assignments may only be relieved by incurring expenditures for that purpose or by Board resolution. Fund balance amounts that are restricted, committed, or assigned are considered to have been spent when the expenditure is incurred for the purpose for which the fund balance was restricted, committed, or assigned. If an expenditure that meets the criteria in more than one fund balance category, then the District considers that the fund balance is relieved in the following order: restricted, committed, assigned, and then unassigned.

6. The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a statewide data base for policy development and funding plans.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, and the Food Service Fund (which is included in Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other reports are in Exhibit J-4.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

II. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

Foreign Currency Risk The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not participating in foreign currency transactions.

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of Use U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. Junction Independent School District is in substantial compliance with the requirements of the Act and with local policies.

As of August 31, 2017, Junction Independent School District had the following investments which are reported as cash and cash equivalents on the balance sheet.

<u>Investment Type</u>	Investment Maturities		
	Fair Value	(in years)	Credit Rating
		Less Than 1	
Investment Pools	\$ 5,332	\$ 5,332	AAA
	<u>\$ 5,332</u>	<u>\$ 5,332</u>	

Credit Risk To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments to depository bank certificates of deposits and state sponsored investment pools.

Custodial Credit Risk for Investments To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District investments in both depository bank certificates of deposits and state sponsored investment pools.

Interest Rate Risk To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires the investment portfolio to have maturities of less than one year on a weighted average maturity basis.

Foreign Currency Risk for investments The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by not investing in foreign currencies.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy Allowances for uncollectible tax receivables within the General Fund are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at August 31, 2017 and Interfund transfers for the year ended August 31, 2017 consisted of the following individual fund balances:

Interfund Balance	<u>From Other Funds</u>	<u>To Other Funds</u>
General Fund:		
Special Revenue Fund	\$ 24,193	
Trust & Agency	<u>87,891</u>	<u>\$ 600</u>

Total capital assets being depreciated	<u>9,596,648</u>	<u>34,998</u>	<u>-</u>	<u>9,631,646</u>
Less accumulated depreciation for:				
Buildings and Improvements	4,352,358	200,913	-	4,553,271
Furniture and Equipment	<u>1,012,990</u>	<u>71,128</u>	<u>-</u>	<u>1,084,118</u>
Total accumulated depreciation	<u>5,365,348</u>	<u>272,041</u>	<u>-</u>	<u>5,637,389</u>
Total capital assets being depreciated, net	<u>4,231,300</u>	<u>(237,043)</u>	<u>-</u>	<u>3,994,257</u>
Governmental activities capital assets, net	<u>\$ 4,660,817</u>	<u>\$ (237,043)</u>	<u>\$ -</u>	<u>\$ 4,423,774</u>

Depreciation was charged to functions as follows:

Instruction	\$ 119,112
Student Transportation	46,846
Food Services	31,293
Cocurricular/Extracurricular	48,132
General Administration	7,681
Plant Maintenance and Operations	18,977
	<u>\$ 272,041</u>

F. CHANGES IN LONG-TERM LIABILITIES

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended August 31, 2017, are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental Activities					
<i>Notes Payable:</i>					
FSB - 31533 Bus 11	\$ 85,000	\$ -	\$ 13,209	\$ 71,791	\$ 13,582
FSB - 31659 Bus 12	<u>85,000</u>	<u>-</u>	<u>13,214</u>	<u>71,786</u>	<u>13,582</u>
Total Notes Payable	<u>170,000</u>	<u>-</u>	<u>26,423</u>	<u>143,577</u>	<u>27,164</u>
Total governmental activities	<u>\$ 170,000</u>	<u>\$ -</u>	<u>\$ 26,423</u>	<u>\$ 143,577</u>	<u>\$ 27,164</u>

G. NOTES PAYABLE

Current requirements for principal and interest are accounted for in the General Fund.

A summary of general long-term debt for the year ended August 31, 2017 is as follows:

Description	Interest Rate Payable	Amount	Interest	Payable	Outstanding
		Original Issue	Current Year	Amounts Outstanding 09/01/2016	Outstanding 08/31/2017
FSB - 31533 Bus 11	2.78%	\$ 85,000	\$ 2,369	\$ 85,000	\$ 71,791
FSB - 31659 Bus 12	2.78%	85,000	2,363	85,000	71,786
		<u>\$ 170,000</u>	<u>\$ 4,732</u>	<u>\$ 170,000</u>	<u>\$ 143,577</u>

Debt Service Requirements

Debt service requirements on long-term debt at August 31, 2017, are as follows:

<u>Year Ending August 31</u>	Governmental Activities	
	Principal	Interest
2018	27,165	3,991
2019	27,920	3,236
2020	28,696	2,460
2021	29,494	1,662
2022	30,303	843
Totals	<u>\$ 143,578</u>	<u>\$ 12,192</u>

H. DEFINED BENEFIT PENSION PLAN

Plan Description. Junction Independent School District participates in a cost-sharing multiple- employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2015 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2016.

<u>Net Pension Liability</u>	<u>Total</u>
Total Pension Liability	\$171,797,150,487
Less: Plan Fiduciary Net Position	<u>(134,008,637,473)</u>
Net Pension Liability	<u>\$ 37,788,513,014</u>
Net Position as percentage of Total Pension Liability	78.0%

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective for fiscal year 2015 as discussed in Note 1 of the TRS 2014 CAFR. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017. Contribution Rates can be found in the TRS 2016 CAFR, Note 12, on page 82.

Contribution Rates

	<u>2016</u>	<u>2017</u>
Member	7.2%	7.2%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%

Junction ISD 2016 Employer Contributions	\$	89,420
Junction ISD 2016 Member Contributions	\$	268,249
Junction ISD 2016 NECE On-Behalf Contributions	\$	215,991

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2016
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	8.00%
Long-term expected Investment Rate of Return	8.00%
Inflation	2.5%
Salary Increases Including Inflation	3.5% to 9.5%
Payroll Growth Rate	2.50%
Benefit Changes During the Year	None
Ad hoc Post Employment Benefit Changes	None

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015

Discount Rate. The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2016 are summarized below:

Asset Class	Target Allocation	Real Return Geometric Basis	Long-Term Expected Portfolio Real Rate of Return*
Global Equity			
U.S.	18%	4.6%	1.0%
Non-U.S. Developed	13%	5.1%	0.8%
Emerging Markets	9%	5.9%	0.7%
Directional Hedge Funds	4%	3.2%	0.1%
Private Equity	13%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11%	0.7%	0.1%
Absolute Return	0%	1.8%	0.0%
Stable Value Hedge Funds	4%	3.0%	0.1%
Cash	1%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3%	0.9%	0.0%
Real Assets	16%	5.1%	1.1%
Energy and Natural Resources	3%	6.6%	0.2%
Commodities	0%	1.2%	0.0%
Risk Parity			
Risk Parity	5%	6.7%	0.3%
Inflation Expectation			<u>2.2%</u>
Alpha			
* Total	<u>100%</u>		<u>8.7%</u>

The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2016 Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
Junction ISD's proportionate share of the net pension liability:	\$ 1,052,878	\$ 1,063,513	\$ 1,074,148

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2017, Junction Independent School District reported a liability of \$1,063,513 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Junction Independent School District. The amount recognized by Junction Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Junction Independent School District were as follows:

District's Proportionate share of the collective net pension liability	\$ 1,063,513
State's proportionate share that is associated with the District	<u>2,563,782</u>
Total	<u>\$ 3,627,295</u>

The net pension liability was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 thru August 31, 2016.

At August 31, 2016 the employer's proportion of the collective net pension liability was .000028143807% which was a .00000276019% increase from its proportion measured as of August 31, 2015.

Changes Since the Prior Actuarial Valuation – There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year measurement period August 31, 2016, Junction Independent School District recognized pension expense of \$215,991 and revenue of \$215,991 for support provided by the State.

At August 31, 2017, Junction Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 16,676	\$ 31,756
Changes in actuarial assumptions	32,414	29,479
Difference between projected and actual investment earnings	204,940	114,884
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	265,110	26,883
Contributions paid to TRS subsequent to the measurement date [to be calculated by employer]	90,912	
Total	\$610,052	\$203,002

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2018	\$ 57,760
2019	57,760
2020	115,202
2021	53,346
2022	34,454
Thereafter	(2,385)

I. SCHOOL DISTRICT RETIREE HEALTH PLAN

Plan Description. The District contributes to TRS-Care, a cost-sharing multiple-employer defined benefit postemployment health care plan administered by TRS. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS board of trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us under the TRS Publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

Funding Policy. Contribution requirements are not actuarially determined, but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for fee basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2016-2014.

Contribution Rates and Contribution Amounts

Year	Active Member		State		School District	
	Rate	Amount	Rate	Amount	Rate	Amount
2017	0.65%	\$ 23,866	1.00%	\$ 2,055	0.55%	\$ 20,194
2016	0.65%	\$ 24,217	1.00%	\$ 2,446	0.55%	\$ 20,491
2015	0.65%	\$ 25,532	1.00%	\$ 2,117	0.55%	\$ 19,912

J. MEDICARE PART D – ON BEHALF PAYMENTS

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which became effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (“TRS-Care”) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments must be recognized as equal revenues and expenditures/expenses by the District. These payments totaled \$11,421, \$14,427 and \$14,452, for fiscal years 2017, 2016, and 2015, respectively.

K. HEALTH CARE COVERAGE

The District sponsors a modified self-insurance plan to provide health care benefits to staff. During the year ended August 31, 2016, employees of the District were covered by health insurance plan (the Plan). The District paid premiums of \$225 per month per employee to the plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

The contract between the District and the licensed insurer is renewed September 1, 2016, and terms of coverage and premiums costs are included in the contractual provisions.

L. DUE FROM STATE AGENCIES

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2017, are summarized below. All federal grants shown below are passed through the TEA.

<u>FUND</u>	<u>STATE ENTITLEMENT</u>	<u>FEDERAL GRANT</u>	<u>TOTAL</u>
General	\$ 288,199	\$ -	\$ 288,199
Special Revenue	-	51,082	51,082
	<u>\$ 288,199</u>	<u>\$ 51,082</u>	<u>\$ 339,281</u>

M. REVENUE FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Total</u>
Property Taxes	\$ 3,599,239	\$ -	\$ 3,599,239
Penalties & Interest and Other			
Tax -related Income	53,209	-	53,209
Investment Income	3,983	-	3,983
Tuition & Fees	-	-	-
Food Sales	-	35,361	35,361
Rent	4,200	-	4,200
Co-curricular Student Activities	4,926	-	4,926
Other	2,853	56,853	59,706
Shared Service Arrangement	-	-	-
	<u>\$ 3,668,410</u>	<u>\$ 92,214</u>	<u>\$ 3,760,624</u>

N. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The District participates in numerous State and Federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2016 may be impaired. In the opinion of the District, there were no significant contingent liabilities relating to compliance with rules and regulations governing the respective grants, therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

O. LITIGATION

The District is occasionally involved in litigation in the general course of business. Attorneys for the District indicate that the Junction Independent School District has no pending or threatened litigation as of August 31, 2017. No provision has been made in the financial statements regarding these matters.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENTAL AUDITING STANDARDS*

Independent Auditor's Report

Board of Trustees
Junction Independent School District
1700 College St.
Junction, TX 76849

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Junction Independent School District, as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise Junction Independent School District's basic financial statements, and have issued our report thereon dated October 31, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Junction Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Junction Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Junction Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Junction Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
